

# Certichex Premier MICR Laser Software

- Streamline Your Payment Process
- Print All Cheque Information In One Step
- Compatible With All Accounting Systems
- Multiple Security Features To Combat Fraud

CERTICHEX Premier streamlines your payment process and leaves the hassles of conventional chequewriting in the past. The many features of Certichex allow you to increase productivity while maintaining multilevel security. By utilizing a MICR laser printer and our Windows®-based software, you will significantly reduce the time required to process cheques while reducing cheque costs by 5 to 15 cents per cheque. Printing cheques from blank safety paper enhances security and reduces inventory. Changes to company name, address, phone, or bank information are done easily and securely. All this is accomplished without changes to your existing accounting system.

## ADDED FLEXIBILITY:

- Design and personalize custom cheques using company and bank logos
- Edit and change information easily
- Print cheques drawn on different accounts or currencies in the same batch
- Print unlimited voucher detail information
- Increase productivity
- Print bank information, MICR line, protected amount, and signatures in one process
- Eliminate hand feeding, decollating, signing, and bursting continuous form cheques

## MULTILEVEL SECURITY:

- Print cheques on readily available standard or customized safety paper
- Eliminate the need to physically secure blank cheques and authorized signatures
- Access software program with authorized user password and USB key only
- Establish dollar amount thresholds on cheques
- Eliminate the cost of preprinting institution and bank information
- Waste less paper by printing voucher details on regular laser paper
- CertiSecure Design which helps to prevent forgery and alteration of cheques
- Signature Swipe card and reader or Biometric control for signature release
- Positive Pay Module

## BROAD COMPATIBILITY:

- Utilizes Windows®-based software technology and MICR printing
- Can be configured for most MICR laser printers
- Supports multi-currency and international cheque formats
- Compatible with all accounting programs
- Ability to print to multiple printers
- Wide area network, standalone, 64bit security, will run in a 32bit environment.

## What our customers say ----

"The time we saved using Certichex has added to the efficiency and productivity of our entire department."

"We have some cheques with 30 pages of voucher overflow. Certichex does this without missing cheque numbers. I can't imagine using a conventional system."

"The Certichex software has eliminated the hassle of continuous-form cheques and simplified the whole payables process for our company."
